

An Appeal to the Citizens of the City of Natchitoches:

I am writing this letter in support of a good man. Four years ago, the citizens of Natchitoches made history by electing someone who had never served in a political office. The national political environment was perfect for this historical accomplishment...people were marching across America in protest of George Floyd's racially motivated, Jim Crow-style murder on national television. The Citizens of Natchitoches were embarking on something that had been tried unsuccessfully four times before.

Historically speaking, we accomplished a significant milestone for the City of Natchitoches (a city that was established in 1714...the oldest city in the Louisiana Purchase Territory.). Moreover, Natchitoches is four years older than New Orleans. Given the aforementioned historical facts and racially motivated murder four years ago, we elected the first black Mayor against all odds!

The "Establishment" in the City of Natchitoches was dumbfounded. "How did this happen?", they asked themselves. According to their expectation, Blacks were never supposed to come together in a common cause for their advancement. "It had never happened before, so why should it happen now?", they asked themselves.

But we did! Now here we are again, embarking on another campaign to collectively do what has never been done before...re-elect Mayor Ronnie Williams, Jr. to serve a second term as the first African American Mayor of the City of Natchitoches. Oh, by -the -way, the "Establishment" is now saying that we can't do it a second time because we are too busy "hating" one another. They're firmly convinced that we hate one another and love our enemy (The Establishment). They believe blacks will not support Mayor Williams given what has been experienced in the lack of voter turn-out during the last few local elections. To add "insult-to-injury", the Establishment is also stating that local blacks are only interested in drinking, smoking and "having a good time"! Are they right or wrong?

Can't we come together and go out to vote for the greater good, the re-election of Mayor Ronnie Williams? Is Mayor Ronnie Williams perfect? No! Is he God? No! Though he's been severely criticized over the past three (3) years (more than likely because he is African American), we must give him credit. He visits all the churches, participates in most civic events, attends most funerals, and visits anyone that requests it of him.

Furthermore, his achievement while in office is greater than any of the other mayors before him given that he has brought in more money (over 40 million dollars) to the City of Natchitoches...we were not taxed a dime. Look at his record...I am not going to list all of his accomplishments because you can find that out for yourself. In summary, our Mayor has been valiant in serving the Citizens of Natchitoches over the past three (3) years. He is a young man with a wife and four young children that we all should be proud of.

Remember, we are nationally fighting to keep a dictator out of office in the person of Donald Trump...a racist tyrant who's seeking to take our rights (including voting rights) away if he is elected. The local "Establishment" is in full support of him.

In closing, won't you join me and do whatever you can to speak well of Mayor Williams and support him with your money and voting for him? Folks, let's do all that we can and not be caught lacking. Let's prove the Establishment wrong. We can come together! We don't hate one another like they think! We are proud of the work Mayor Williams has done. As he grows in experience and knowledge, bigger and better things will "continue" to happen for the Citizens of Natchitoches.

Let's go to work and most importantly, re-elect Mayor Ronnie Williams, Jr!

Sincerely,

John E. Winston, Sr.

Ronnie Williams, Jr.
