Re: Preservation of Evidence

I am writing as an attorney to direct your organization, its Board of Directors, and its employees to preserve all records, recordings, emails, text messages, social media, and any other medium used on official or personal accounts regarding Thorn LaCaze. Your organization employed Mr. LaCaze, and I have information that shows your organization covered this abuse and enabled it.

The newly enacted Louisiana law ( <https://lailluminator.com/2024/06/11/child-abuse-2/> ), which gives survivors of childhood sexual abuse a cause of action against churches, also applies to the Louisiana School. To that end, a forthcoming lawsuit will be filed to address what I outlined in Paragraph 1.

Given Dr. Horton's destruction of evidence and perjury in recent litigation, I am asking the Board of Directors to address this matter immediately. Your fiduciary duty requires it.

All survivors of child sex abuse scandals deserve to be heard. And that they will be.

Regards,

Donald Hodge
